

JOB OPPORTUNITY

DO YOU HAVE EXPERIENCE IN PROCESS OPTIMIZATION AND LEADERSHIP?

IF SO, YOU MIGHT BE OUR NEW SUPPLY CHAIN MANAGER...

For our head office situated in Aarup, close to Odense, we are on the lookout for an experienced and ambitious Supply Chain Manager.

The Role

This new position requires that you take leadership in implementing and executing effective and efficient procurement and supply chain services as well as optimizing the product flow and procedures in our cable warehouse in Denmark and Norway and our logistics operations from supplier to end user across the world.

Because the position is newly established, your role, will have a unique opportunity to fully manage the end-to-end supply chain in the company and join in our strong management team.

Responsibilities

Your primary focus will be optimizing and improving our warehouse operations. Furthermore, you will strive to streamline the value chain by standardization and work routines. You will oversee the implementation and thereby reaching our goals.

- Optimize the day-to-day operations including the workflow in the production/warehouse
- Transportation
- Cross-organizational planning and sparring
- Improve the implementation of our ERP system NAV in collaboration with our IT department
- Staff responsibility

Requirements

- Working experience within warehousing/ minor production
- Experience within logistics, including distribution and automation of warehouse operations
- Experience working with Microsoft Office, NAV, KPIs and key results
- You have excellent communication skills in English, preferably Danish and German

We expect you have proven experience in logistics and/or a supply chain role – preferably with experience from an electric industry. Your logistic experience can also origin form manufacturing company. Or be an engineer specialized in logistics or similar. Strong skills with LEAN and E-commerce is a plus. It is preferred that you live within a reasonable driving distance from Aarup.

Application and contact

In case you have additional questions, please feel free to contact our CEO Morten Rasmussen at mr@scankab.dk or +45 7020 3455.

Please apply as soon as possible. We process applications on a continuous basis and close the job opening once the right candidate has been found. Send application to ansogning@scankab.dk.
